

BERNSTEIN CC-5000 Aluminium Control Enclosure

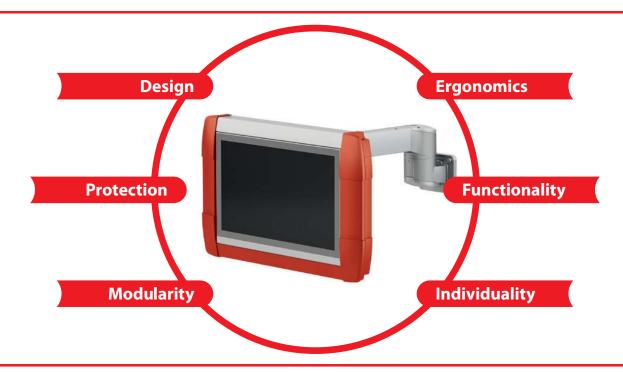

Protection in its most beautiful form

The new Aluminium Control Enclosure CC-5000

Design aspects along with **modularity**, **functionality** and **ergonomics**, are rapidly becoming more and more important for plant and machinery manufacturers, especially when selecting the appropriate control enclosure for their machines and installations. To meet the increasing demand for aesthetically pleasing enclosures, we have developed a new BERNSTEIN Control Enclosure System.

In addition to technical optimisation, **contemporary design** and a **modular system** is of the utmost importance – all of which are included in this new product.

Product features

- Modern and functional industrial design
- High-quality extruded aluminium sections (naturally anodised)
- Customised colours from RAL range
- Single-walled sections that provide outstanding heat dissipation
- Integrated recessed grips for simple handling
- Protection class IP 65
- All-round mounting grooves for built-in components, no need for modifications
- Internally mounted front panel

- Door configurations for direct access to the interior
- Slimline design for configuring flat screen systems
- Customised solutions to your specifications (see checklists on pages 12-15)

Individual colour combination

You are even able to personalise the colour of the enclosure to your specific corporate identity.

Monochrome

- Coloured end caps, anodised sections
- Coloured side handle sections and end caps
- Coloured horizontal sections and end caps
- Coloured frames

Modular system

Control Enclosure versions

The dimensions of the new control enclosure CC-5000 neXt (along with our existing series CC-3000, CC-4000 and CC-4000 SL) are freely selectable. Nine possible depths are available. The obtained installation depths range from 2.1" to 13.1" The width and height dimensions are offered up to **39.4"** in either direction.

Frames can be used in individual or multiple combinations.

Innovative console configurations are possible thanks to a connecting element which has been designed in line with the new design.

Front panel

- Internally-mounted front panel through clamping tie bar
- Machining for integrating IPCs or Panel-PCs, push buttons and interfaces or engravings on demand
- Screen print according to your specifications on demand

Console version

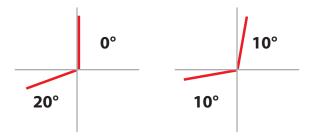

System features

For console versions, the keyboard is located in a separate housing. The specially designed coupling head connects the control panel (upper part) to the keyboard console (lower part).

The keyboard console can be mounted inclined downwards by 20 or 10 degrees. In the first case, the control panel is perpendicular, whilst in the second case it is inclined backwards by 10 degrees.

Individual solutions for operating and monitoring

Technical details

Frame design

- Use of extruded aluminium sections (standard naturally anodised)
- Assembling of section via corner modules

Hinge

- New concealed hinge design
- Hinge is unseen when door is closed
- Unique in the market today

Door centring

- Door centred via alignment feature
- Invisible in closed position
- Secure door closing

Rear panel

- **Fixed** version (optional connection to panel coupling)
- Hinged version

Sections and combination possibilities

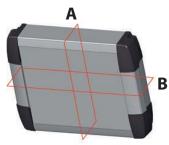

To provide simple and safe handling when connecting to the suspension system, the CC-5000 neXt has integrated recessed grips on the left and right hand side.

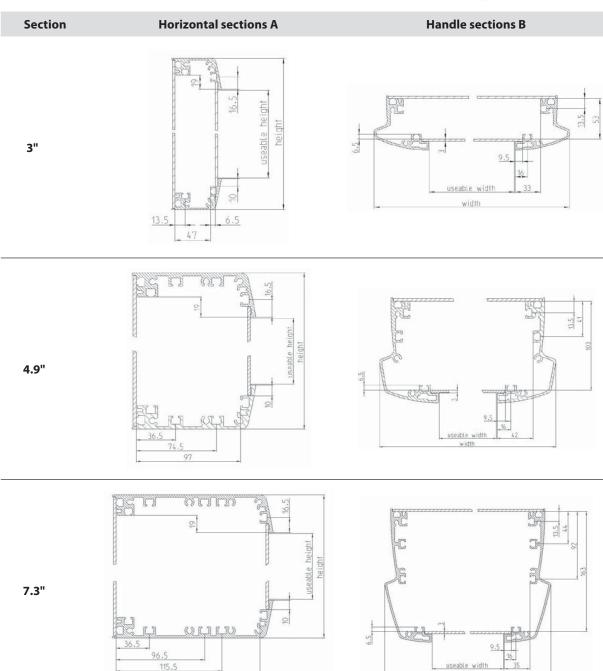

Inside there are adjustable slots to allow components such as power supply units, support panels, terminal mounting rails etc. to be easily attached.

| Basis sections | External depth | Installation depth |
|--|---|--------------------|
| | 3" | 2.1" |
| | 4.9" | 4.1" |
| Re Carrie | 7.3" | 6.4" |
| Section combinations | External depth | Installation depth |
| | 6" (3" + 3") | 4.5" |
| | 7.9" (3" + 4.9" or 4.9" + 3") | 6.5" |
| The state of the s | 9.8" (4.9" + 4.9") | 8.4" |
| To the second second | 10.3" (3" + 7.3" or 7.3" + 3") | 8.8" |
| The state of the s | 12.2" (4.9" + 7.3" or 7.3" + 4.9") | 10.8" |
| C. C | 14.6" (7.3" + 7.3") | 13.2" |

Profile cross sections

Technical data

Material

- Extruded sections: Aluminium
- Die-cast corners: Aluminium
- Die-cast caps: Aluminium
- Sealings between section and corner module: PUR
- Sealings for front panel and rear panel: EPDM, PUR and PVC
- Hinge (for section combinations): Aluminium
- Articulated hinge (for enclosure with single sections):
 Aluminium
- Front panel, rear panel: Aluminium

Colour

- Sections: Naturally anodised (standard)
- Front panel, rear panel: Naturally anodised (standard)
- Corner modules: RAL 9006, white aluminium (standard)
- All components can be optionally powder-coated to a wide variety of RAL colours

Protection class

IP 65

Operating temperature

-30 °C to +80 °C (-22 °F to +176 °F)

Dimensions

- Width x height maximum: 39.4" x 39.4"
- Width x height minimum: 10.9" x 14.8"

Approvals

cULus (projected)

Accessories

Thanks to a comprehensive range of accessories, the modular control enclosure concept can be perfectly adapted to your requirements.

- Signal light integrated in the design (RGB-LED)
- Door arrester
- Suspension system components for attaching on the top, bottom and back
- Different keyboard solutions
- Diverse add-on elements (interfaces, push buttons, fans, handles etc.)

For further control enclosure accessories, please see our main catalogue
